Sameer Rangoonwala

(773) 567-3000 | srangoon@hawk.iit.edu | Chicago, IL

Objective

Aspiring computer science student seeking to leverage teamwork, analytical, and coding skills as a software engineering intern.

Education

Illinois Institute of Technology, Chicago, IL
Majoring in Computer Science (Bachelor of Science)
Expected Graduation: 2022

Skills

Programming Languages: Python, Java, C, SQL, HTML/CSS
Tools/Technologies: Git, Github, Bitbucket, Bash, Vim, Eclipse, VS Code, PostgreSQL
Courses: Object Oriented Programming (Java), Data Structures and Algorithms (Python), Database Organization (SQL), Systems Programming (C)
Languages Spoken: Hindi and Urdu

Projects

Menu Driven Reporting Application | Java
- Developed an application that parses data from an input file and generates a report based on user specifications
- Allowed users to select the type of data to insert into the report

Titration Volume Tracker | Java
- Developed a time saving calculator for chemistry lab assignments that tracks the volume of titrant used in titration procedures, eliminating the need for tedious, multi-step calculations by hand
- Exported the volume data to a text file for use in spreadsheets and graphs

Achievements and Awards
- Dean's List, Fall 2019
